TRAILER MOUNTED VMS

PCMS4880RC

The PCMS4880RC is a mini full matrix trailer mounted portable variable message sign. It features tilt and rotate solar panels and the JamLogic fleet management software (modem required). The PCMS4880RC is the most compact PCMS in our range and provides a lot of flexibility with up to 8 lines of text and 20 characters per line. It's the perfect model to use in urban areas, school zones, lower speed roadways or for law enforcement and special events.
HIGH DEFINITION DISPLAY CARDS

The PCMS4880RC features Ver-Mac's exclusive high definition display cards that provide a sharper more detailed text and graphic display. The higher degree of clarity allows the PCMS4880RC to be more visible from a distance than other message signs.

Product code: LED-VM-PCMS4880RC

## JAMLOGIC WEB APPLICATION FOR SMART DEVICES

State of the art technology replacing the need for an on board controller. Change your message, set parameters, check battery status and so much more from any smart device. There are two options for connectivity:

- Direct Wifi connection within range of the sign
- Logging in to the web based internet application

Contains all of the menu options you can see via your PC or laptop. Couldn't be easier!
