Remarkable VMS Graffiti Remover...cleaned up the bank without damage...Five minutes...Job well done!

Road Barrier Graffiti Remover

Road Barrier Graffiti Remover achieves a consistent success rate of 98%

Ideal for councils, contractors and anybody who is serious in removing graffiti professionally & quickly with no damage to the surface or the environment. Ideal for removing spray can paint, 'ironlak', buff ink, molotow and permanent markers from barebrick, masonry, concrete, stone and other non-painted surfaces.

FEATURES	BENEFITS
<ul style="list-style-type: none"> • Coverage • Superior "wetting" agent • Fast acting • Easy to apply • The "oldest" & most "ancient" graffiti removed easily • Contractor tuff • Biodegradable 	<ul style="list-style-type: none"> • 4-6m2 per litre • Even in the hottest areas of Australia, it will remain 70% wetter, which is longer than any other product as it does not dry out. You are not wasting product or water • Use less product and 60% less water when rinsing • Broom on or brush on • Tackle any graffiti removal with CONFIDENCE • Developed for contractors by contractors with over 45 years combined experience, so we know it works every time • When rinsed off with water, our Graffiti Remover is neutralised

National Icon Captain Cooks Cottage, Melbourne, Victoria. Our instructions were clear..."remove graffiti without damage"...the result speaks for itself!

Graffiti Remover

VMS Graffiti Remover

AVAILABLE IN 5L/10L/20L BOTTLES

DIRECTIONS

1. Put on safety glasses, gloves and relevant PPE
2. Pour some VMS Graffiti Remover into a bucket and apply the product to the graffiti with a sponge/cloth. Using the sponge/cloth, agitate the graffiti (like scribbling on a wall)
3. Some inks and aggressive permanent markers may require step 2 to be repeated
4. Keep the graffiti wet with the product, if it dried out, the graffiti remover will not work as quickly or effectively. The wetter...the better
5. Always remove graffiti from small areas at a time
6. The dissolved graffiti can be removed with a damp cloth on a smooth surface. Rinse off the graffiti on the VMS surface
7. Rinse using either a pressure nozzle, trigger hose or high pressure washer on low pressure...JOB DONE

CLEANUP

Wash equipment with water immediately after use

Road Barrier Graffiti Remover (Do not use on metals)

AVAILABLE IN 5L/10L/20L BOTTLES

DIRECTIONS

1. Put on safety glasses, gloves and relevant PPE
2. Pour some Road Barrier Graffiti Remover into a bucket and generously apply the remover to the graffiti with a nylon bristle paint brush or broom. Do not scrimp on the amount of product. Apply liberally
3. Repeat this procedure three times in succession at three minute intervals for the majority of spray cans. There is no need to scrub hard but agitation is certainly helpful. Extra applications may be necessary on porous surfaces or on old graffiti
4. Keep the graffiti wet with the product, if it dried out, the graffiti remover will not work as quickly or effectively. The wetter...the better
5. Rinse using either a pressure nozzle, trigger hose or high pressure washer on low pressure...JOB DONE

CLEANUP

Wash equipment with water immediately after use

IMPORTANT

Always read the safety instructions before using any cleaning product and observe all safe working requirements e.g. safety gloves, safety glasses or other PPE

Wear long sleeves. Do not apply chemical above shoulder height

Do not blast too close in order to remove the graffiti as it may cause damage to the surface and will possibly only remove a small amount of graffiti

The Graffiti Remover is to be used as supplied. Do not dilute

Store in a cool dry place

Shelf life 2 years
